- Technological assembly
- Supports for mobile cranes
- Support arms for concrete pumps
- Safety parts for earthmoving machinery
- Roller conveyors for woodpanel sheet cutting machines

## Custom productions:

- special parts for the manufacture of railway vehicles and other custom cutting work

The background of the slide is a collage of industrial images. On the left, a large metal component is being processed by a machine. In the center, there's a blurred view of a factory floor with various pieces of equipment. On the right, a close-up shows a robotic arm or tool head positioned over a tray filled with many small, cylindrical metal parts.

# PARTNERS

- LIEBHERR
- PUTZMEISTER
- CATERPILLAR
- GANZ MOTOR

# MACHINERY

- CNC plasma- and lasercutting machine
- CNC Bendingmachine, press machine
- Machining centers
- Weldingmachines
- Weldingrobot with laser sensor
